ALLOWANCE

Acknowledgements

1. Applicants' amendment received 2 September 2008 is acknowledged. Accordingly, claims 1, 4-14, 16-18, 20, and 21 remain pending and are herein allowed.
2. The Board of Patent Appeals and Interferences ("Board") decision on 26 September 2008 still has bearing on the this application.
3. This paper is assigned Paper No. 20080916 by the Examiner.

Reasons for Allowance

4. The following is the Examiner's statement of reasons for allowance.
5. Regarding the claimed terms, the Examiner notes that a "general term must be understood in the context in which the inventor presents it." *In re Glaug* 283 F.3d 1335, 1340, 62 USPQ2d 1151, 1154 (Fed. Cir. 2002). Therefore the Examiner must interpret the claimed terms as found on pages 1-39 of the specification. Clearly almost all the general terms in the claims may have multiple meanings. So where a claim term "is susceptible to various meanings, . . . the inventor's lexicography must prevail" *Id.* Using these definitions for the claims, the claimed invention was not reasonably found in the prior art.
6. The primary reference Berent et. al. (U.S. 5,774,873)("Berent") discloses as previously discussed. Berent however does not teach at least:

"said bid module being further configured to provide at least one of purchase, rental and lease transaction options to said second user in accordance with said bid definition;"

“wherein said bid definition includes a bid date defining when said asset will be available for placement of a bid thereon, and an availability date defining when said asset is expected to become available for delivery;” or
“maintenance history data.”

7. Moreover, the missing claimed elements from Berent are not found in a reasonable number of reference(s). Yet even if the missing claimed elements were found in a reasonable number of references, a person of ordinary skill in the art at the time the invention was made would *not* have been motivated to include these missing elements in an embodiment in the Berent disclosure because: maintenance history is not usually a concern when renting a vehicle and restricting the duration for bidding works in favor of the bidder not the party putting the property up for auction.
8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to JOSHUA MURDOUGH whose telephone number is (571)270-3270. The examiner can normally be reached on Monday - Thursday, 7:00 a.m. - 5:00 p.m.
10. If attempts to reach the examiner by telephone are unsuccessful, the examiner’s supervisor, Andrew Fischer can be reached on (571) 272-6779. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

11. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>.
